Certifications

Front-End Development – Quera

User Interface (UI) Design – Amanj

React Development – Karyar & Kariz

Projects

Real Estate Website

Live: existenceoffice.ir

- Developed a responsive real estate website with property listings and modern UI design.
- Implemented user-friendly navigation and structured layout for better user experience.
- Focused on performance, responsiveness, and clean interface design

Front-End Mini Projects

GitHub: <https://github.com/snoou/frontend-mini-project>

- Built multiple small front-end projects to practice core HTML, CSS, and JavaScript concepts.
- Focused on DOM manipulation, responsive design, and UI components

React Mini Projects

GitHub: <https://github.com/snoou/mini-project-react>

- Developed various React-based mini applications to strengthen component-based architecture.
- Practiced state management, props handling, and reusable components

Expense & Income Management System

GitHub: <https://github.com/snoou/react-internship-project>

- Built a financial tracking system for managing expenses, income, and reports.
- Implemented data visualization and dynamic state updates using React

Manga & Power Analysis Project

GitHub: <https://github.com/snoou/kariz>

- Developed a web application for manga content and character power analysis.
- Focused on UI structure, dynamic data rendering, and interactive design

Website Builder Platform

GitHub: <https://github.com/snoou/karyar-s>

- Created a website builder platform allowing users to generate and manage web pages.
- Implemented reusable components and modular architecture using React
